

# INDEX

- Adams, M. J., 19  
 Addax, 60, 180  
*Addax nasomaculatus*, 180  
 Ain Asil, 20, 295, 335  
*Alcelaphus buselaphus*, 119, 123, 125, 180  
*Addax nasomaculatus*, 180  
 adult 1 (A-1), Room 5, 356  
 adult 2 (A-2), Room 15, 356  
 adult 3 (A-3), Room 20, 356–59  
 adult 4 (A-4), Trench ST-1, 356, 358, 359  
 Akhnaten (king), 33  
 Alexandria branch, 12, 58  
 al-Shaykh sa'id, 143, 146, 169, 171, 173, 182, 183, 185  
 Althusser, L., 36  
 Amenemhet I, 101, 136  
 Amenemhat II, 16  
 Amenemhat III, 17, 344  
 Amenemmes, 17  
 Amenhotep I, 17  
 amulets and scarabs (grave goods), 350  
 Analysis of Variance (ANOVA), 316–20  
*Anas acuta*, 160, 161  
*Anas crecca*, 157, 160  
*Anas Penelope*, 157  
*Anas platyrhynchos*, 160  
 Anderson, A., 256, 388  
 Andres, W., 12  
 archaeological stratigraphy and settlement history ca. 2500–1900 BC evidence, 370  
 archaeology and evolutionary theory, 39–41, 260, 383–84  
 architecture evidence, 370–71  
*Ardea cinerea*, 157  
 ass, 105, 176, 209
- Babiker, M. M. 150, 154  
 Bagnall, R. S., 212  
*Bagrus* sp., 146, 150–51, 153, 154  
 Baines, J., 38  
 Ballet, P., 258–59, 360  
*Barbus* sp., 150, 153  
 Bárta, M., 11, 39  
 bases: Type 30 (small, footed), 270  
 beer jars, 261, 297  
 Best, M. L., 309  
 Bettinger, R., 310, 311, 316  
 Bintliff, J.: *The Death of Archaeological Theory?*, 28  
 birds (class aves), 156–61; *Anas acuta*, 160, 161; *Anas crecca*, 157, 160; *Anas Penelope*, 157; *Anas platyrhynchos*, 160; *Ardea cinerea*, 157; *Fulica atra*, 160, 161; *Gallinula chloropus*, 160; *Platalea leucorodia*, 157; *Porphyrio madagascariensis*, 160; *Struthio camelus*, 157; *Tringa cf. erythropus*, 160–61
- Boas, F., 27  
 Boessneck, J., 146, 172, 183  
*Bos Taurus*, 100, 105, 114, 162–63  
 bowls; low, 264; Type 5 (large tub) 265; Type 6 (large, deep with thick rounded lip), 265; Type 7 (large, deep with red-slipped surface), 265; Type 8 (thick-walled tub), 265; Type 9 (large with convex walls), 277; Type 10 (straight thin walls), 266; Type 11 (straight, outward leaning walls), 266; Type 12 (large, concave walls), 266; Type 15 (convex walls), 267; Type 16 (inward slanting walls), 267; Type 17 (vertical outward-leaning), 267; Type 18 (outward rim and downward droop), 268; Type 19 (outward-drawn knobby lip), 268; Type 20 (low, round-bottom), 268; Type 21 (outward-drawn plain rims), 268; Type 22 (small), 268; Type 23 (large, outward leaning walls), 269; Type 24 (large, drawn-out straight rim), 269; Type 25 (convex walls and upward turning), 269; Type 26 (tall, outward leaning), 269; Type 27 (small rounded lip), 269; Type 28 (plain lip and straight rim), 269; Type 29 (low, drawn-out, rounded lip), 270; Type 31 (covered with thick slip), 270; Type 32 (orange-red hemispherical), 270; Type 33 (hemispherical), 271; Type 34 (rounded bottom), 271; Type 35 (bend inward at a more or less harp angle from bottom), 271; Type 36 (similar to 35 with one to three engraved lines near lip), 271; Type 37 (thin-walled with double recurved rim), 271; Type 38 (rounded, small lip pulled inward), 272; Type 39 (deep with slight contraction under lip), 272; Type 40 (deep with lightly curved rim), 272; Type 41 (round-bottomed with sharp recurving high rim), 272; Type 42 (sharply recurving rim slanting outward), 273; Type 43 (round-bottomed with high-flaring, sharply recurved lip), 273; Type 44 (round-bottomed with carinated rim), 273; Type 45 (rounded neck), 273; Type 46 (short straight neck), 273; Type 47 (short rounded lip setback from protruding shoulders), 274; Type 48 (like 46, slipped and polished inside and outside), 274; Type 49 (like 40, slip varies from orange-red to red), 274; Type 50 (extremely thin walls), 274; Uruk beveled-rim, 261. *See also* Meidum bowls
- Brass, M., 43

- bread molds: Type 2. cups/beakers, 264  
 Brewer, D. J., 151  
 bricks, *gezira*, 79, 91, 97, 99, 100, 106  
 Bubastis, 20, 47, 51  
 Buck, P., 12, 13, 101; Kom el-Hisn geomorphology 51; Room 1, 109; Room 2, 110; Room 5, 113; Room 14, 125; Room 16, 126; stratigraphic analysis, 72–73, 75, 76, 77, 91, 97; Unit 1156S/1000E, 77; Unit 1166S/1066E, 97  
 Buhen, 20, 259  
 burials, human. *See* human burials  
 burial types, 344–46; frequency, 346–48; interments, 346–48
- Cagle, A., 17, 51, 52, 323; chronological concerns, 359, 370; depositional units, 75, 109, 354; deposit types, 75, 76; Meidum bowls, 313; Room 1, 109; Room 2, 110, 111; Room, 5, 115; Room 6, 115; Room 9, 119; Room 12, 121; Room 15, 125; Room 18, 129, 130, Room 20, 130; Room 22, 131; Room 23, 132; Unit 1219S/1095E, 96; Unit 1261S/1074E and 1263/1074E, 101  
 canary grass, 211  
*Canis familiaris*, 181  
 catfish, 146, 151  
 cattle, 3, 7, 15, 16, 20, 22, 31, 40, 42–43, 45, 46–48, 100, 105, 162–63, 168, 172, 181–82, 183, 184, 194, 205–6, 213, 364, 367, 369, 376, 382; count, 42, 371; dung, 194, 208, 210, 215, 216, 373; management, 214–17; pens, 371, 372, 373, 379; ranches, 206, 216, 217, 261, 384, 386; sacred, 362. *See also* Sekhat-Hor  
 causality, 29, 33–39, 258, 364  
 Central-Place Theory, 30, 31  
 ceramic and stone vessels (grave goods), 348  
 ceramics: analytical units, 255–56; analyses, 255–62; chronology, 258–59; classifying by dynasty, 295–98; comparison to the material from Giza, 299–301; discussion, 299; eleventh and twelfth Dynasties, 274–75; evidence, 380–83; functional differentiation and specialization, 259–60; future research, 261–62; importance to research design, 255; marl clay, 275; methods and results of analyses, 255–61; Nile Silt C, 263–66; significance of analyses in comparative studies of ancient states, 260–61; types, 263–93
